an authoritative reference guide to building wargaming campaigns featuring a full set of campaign rules tips on creating maps and more most miniature wargames take the form of simulating a single battle with the opponents either winning or losing and that s that until the next game such games can be a fun test of tactical skill but it can be even more rewarding if they form part of a wider campaign in a campaign the players commanding the forces have to make the decisions at the strategic level that determine the context of any battles that occur the outcome of these battles will in turn have strategic consequences for the ongoing campaign although campaigns can be very rewarding many wargamers are deterred by the need to produce maps and devise mechanisms for strategic movement intelligence logistics recruiting reinforcements keeping track of casualties etc henry hyde s excellent book greatly eases this task with masses of sound advice concrete suggestions and even a full set of campaign rules useful for any period whatever historical or fantasy setting you prefer henry shows that even simple campaigns can add extra fun to your gaming praise for wargaming campaigns this big thick tome contains everything you d ever want to know about creating and running a

wargame campaign historical miniatures gaming society

animal characters abound in graphic narratives ranging from *krazy kat* and *maus* to *we3* and *terra formars* exploring these and other multispecies storyworlds presented in words and images *animal comics* draws together work in comics studies narrative theory and cross disciplinary research on animal environments and human animal relationships to shed new light on comics and graphic novels in which animal agents play a significant role at the same time the volume s international team of contributors show how the distinctive structures and affordances of graphic narratives foreground key questions about trans species entanglements in a more than human world the writers artists covered in the book include nick abadzis adolpho avril jeffrey brown sue coe matt dembicki olivier deprez j j grandville george herriman adam hines william hogarth grant morrison osamu tezuka frank quitely yu sasuga charles m schultz art spiegelman fiona staples ken ichi tachibana brian k vaughan and others

this book critically engages the emerging field of global animal law from the perspective of an intersectional ethical framework reconceptualising global animal law this book argues that global animal law overrepresents views from the west as it does not sufficiently engage views from the global south as well as from indigenous and other marginalised communities tracing this imbalance to the early development of animal law s reaction to issues of international trade the book elicits the anthropocentrism and colonialism that underpin this bias in response the book outlines a new intersectional second wave of animal ethics incorporating marginalised viewpoints it elevates the field beyond the dominant concern with animal welfare and rights and drawing on aspects of decolonial thought earth jurisprudence intersectionality theory and posthumanism it offers a fundamental rethinking of the very basis of global animal law the book s critical yet practical new approach to global animal law will appeal to animal law and environmental law experts legal theorists and those working in the areas of animal studies and ecology

a multi disciplinary investigation of the links between people and animals in reality and representation domestic animals played a range of roles in the imaginative world of medieval icelanders from partners in settlement and household allies to violent offenders foster kin and surrogate wives they were vital and effective members of the multispecies communities established from the ninth century onwards this book examines the domestic animals of early iceland in their physical and textual contexts through detailed analysis of the spaces and places of the icelandic farm and farming landscape and textual sources such as the book of settlements the earliest icelandic laws and various episodes from the sagas and tales of icelanders taking a multidisciplinary approach to animal human relationships it sees animals not solely as symbols metaphors or objects but as subjects in affective relationships with their human co settlers who become the focus of intense exploration delight anxiety and condemnation in later textual narratives by inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies communities in which animals and humans lived worked and died together ation in later textual narratives by inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies

communities in which animals and humans lived worked and died together ation in later textual narratives by inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies communities in which animals and humans lived worked and died together ation in later textual narratives by inviting readers to question how these sources form embrace or reject animal human relationships it provides a resource for understanding these archaeological sites and textual narratives differently as products of multispecies communities in which animals and humans lived worked and died together

this book focuses on animal laws and animal welfare in major jurisdictions in the world including the more developed legal regimes for animal protection of the us uk australia the eu and israel and the regulatory regimes still developing in china south africa and brazil it offers in depth analyses and discussions of topical and important issues in animal laws and animal welfare and provides a comprehensive and comparative snapshot of some of the most important countries in the world in terms of animal population and worsening animal cruelty among the issues discussed are international law topics that relate to animals including the latest wto ruling on seal products and the eu ban the blackfish story and us law for cetaceans the wildlife trafficking and crimes related to africa and china and historical and current animal protection laws in the uk and australia bringing together the disciplines of animal law and animal welfare science as well as ethics and criminology with contributions from some of the most prominent animal welfare scientists and animal law scholars in the world the book considers the strengths and failings of existing animal protection law in different parts of the world in doing so it draws more attention to animal protection as a moral and legal imperative and to crimes against animals as a serious crime

the rise of the globalized economy has rendered an even more profound change in the relationship between humans and other animals than the ancient progression from huntergatherer to agricultural society in today s global markets multinational corporations exploit the economic value of animals throughout the world on an unprecedented scale the philosophical and legal notions that animals are mere unfeeling machines or pieces of property although more or less taken for granted for centuries has been challenged if not burst asunder in recent decades in law moral philosophy and cognitive and other sciences and regulation of the treatment of animals in agriculture experimentation entertainment and other areas has begun to make substantial inroads in national and international law this book provides a detailed analysis of international and comparative animal law focusing on the impact of today s globalized economy on animal law describing a wide range of domestic and international laws relating to the treatment of animals the author explicates the sorts of legal rules which affect the global animal marketplace representative norms in existing animal protection laws are analyzed and critiqued illustrating the diverse approaches taken by different countries and by the international community in regulating uses of animals among the issues covered are the following contemporary philosophical thought on the relationship between humans and animals recent scientific research relating to cognitive and other abilities of animals legal issues relating to factory farming and animal slaughter legal protection of animals during transport regulatory schemes on animal experimentation laws on the use of animals in entertainment laws on protection of

companion animals regulation of trade in endangered species international trade issues relating to animals including consideration of the provisions of gatt and the seminal wto gatt decisions in the tuna dolphin shrimp turtle tuna labeling and eu seal products cases constitutional protection for the interests of animals intellectual property law issues relating to animals efforts to have the legal personhood of certain animals judicially recognized and what the future may hold for animal law in the global economy to ensure the consideration of a full range of legal approaches the laws analyzed come from a wide variety of countries and jurisdictions including australia austria brazil canada the eu germany india ireland new zealand switzerland the uk and state and federal laws of the us numerous international treaties and conventions relevant to animal treatment and animal law are also covered including the berne convention for the protection of literary and artistic works the cites convention the european convention for the protection of animals kept for farming purposes the european patent convention the gatt treaty the trips agreement and the universal copyright convention it is not difficult to grasp given the continuing increases in production consumption and use of animals and animal products worldwide that legal initiatives in this often emotional and acrimonious area of law are frequently contentious and hard fought but this is really just the dawn of animal law which has only recently become recognized as an important cutting edge topic and this area of the law promises to develop rapidly in the future this book is enormously valuable in contributing to the continuing development and understanding of this law clearly laying out the contours and boundaries of existing animal laws in our global economy and allowing legal educators concerned lawyers and policymakers to teach formulate proposals argue cases and defenses and secure a firm purchase on future trends and developments in animal law

with contributions from over 135 international experts this encyclopedia provides an expansive overview of the emerging field of animal law focusing on the legal regulation of human interactions with non human animals the volume serves as an insightful guide to how the law can promote the wellbeing of animals as well as the environment
