forensic document examination is the study of physical evidence and physical evidence cannot lie only its interpretation can err only the failure to find it or to hear its true testimony can deprive it of its value roy huber author a definitive review of handwriting identification this book presents in a general manner how to approach document examination and then in particular how to apply handwriting identification to the document types of handwriting are discussed in detail for the first time in the field of questioned document examination handwriting identification facts and fundamentals consolidates the pertinent information from published and unpublished sources respecting writing that is essential to the expansion of a practitioner s general knowledge of handwriting identification and to the proper education of novices written in a question and answer format the book suggests some of the questions that one might ask of an examiner and provides the answers that knowledgeable and competent examiners should be expected to give this book is a valuable addition to law libraries and to every practicing document examiner as well as every lawyer handling cases in which the authenticity of handwriting might be disputed

this book argues that correspondence theories of truth fail because the relation which holds between a true thought and a fact is that of identity not correspondence according to julian dodd facts are not complexes of worldly entities they are as frege believed true thoughts the supposed truthmaker is nothing but the truthbearer the author christens this response to correspondence theories the modest identity theory which he goes on to distinguish from those identity theories propounded at some time or other by russell moore bradley john mcdowell and jennifer hornsby it is acknowledged that the modest identity theory provides neither a definition of truth nor an account of what truth consists in the modest identity theory s role is by contrast that of diagnosing the failure of correspondence theories and thereby preparing the ground for a proper deflation of the concept of truth a deflation defended in the latter part of the book

this book presents cutting edge knowledge on scientific approaches to the management of supply networks in a highly informed global environment with abundant dynamic and uncertain challenges provided by publisher

what are we are we for example souls organisms brains or something else in this book andrew brenner argues that there are principled obstacles to our discovering the answer to this fundamental metaphysical question the main competing accounts of personal ontology hold that we are either souls or composites of soul and body or we are composite physical objects of some sort but as brenner shows arguments for either of these options can be parodied and transformed into their opposites brenner also examines arguments for and against the existence of the self offers a detailed discussion of the metaphysics of several afterlife scenarios resurrection reincarnation and mind uploading and considers whether agnosticism with respect to personal ontology should lead us to agnosticism with respect to the possibility of life after death

discusses a range of philosophical questions about fictional characters and fictional objects with implications for metaphysics the philosophy of mind and the philosophy of language
