praktische atlas van tung s acupuncuur een methode waarbij slechts weinig naalden worden gebruikt

talks about the location application and mechanism of tung s extraordinary points

although master tung s acupuncture has been in the public domain since his untimely passing in 1975 very little information is

available publicly on how to use the system in a practical and systematic way in english in this book i hope to guide my fellow colleagues into the intricacies of applying master tung acupuncture in the clinic since i am also a practicing acupuncturist and deal with pain women s health and internal medicine problems quite frequently i am sharing my clinical experience in this book and the secret of creating the protocols that i use daily with modification i also attempt to explain why i choose a particular protocol and the modification to it in this book i introduce what i consider the best of master tung s acupuncture there are many books on master tung s acupuncture which introduce all of the 740 tung family points but often these books may be too much for the beginner and do not let the beginner grasp useful concepts or how to use master tung s acupuncture immediately and effectively most acupuncturists simply add the tung points to their already memorized tcm acupuncture point prescriptions and as a result make a mess out of their acupuncture they do not have a simple and elegant rationale for using the system in my teaching of master tung s acupuncture i always choose points that are painless easily accessible and have powerful immediate results

the book focuses on the therapeutic system of tung s acupuncture disorders covered in this book include therapeutic point selections and the analysis of reasoning and theoretical principles the point selections are described according to the 14 meridians and explained in accordance with classical acupuncture and master young s personal clinical experience master young also compares the therapeutic effect between the applications of the 14 meridians and tung s acupuncture

consists of lists of acupuncture points and their locations according to the original chinese edition of tung s acupuncture

the first text on bloodletting therapy for western practitioners of chinese medicine this authoritative introduction explores the history theory and function of the practice through the exploration of classic texts and contemporary standards it provides everything needed to gain a comprehensive understanding of the technique

this book is a primer an introduction of the quintessential basics something that a person who has not attended my seminars could read quickly and immediately familiarize themselves with the core concepts imaging channel methods have a few go to points and immediately apply the magic of master tung s acupuncture in the clinic it is not exhaustive in theory details or intricacies but shows the power of the system to a tcm trained acupuncturist and immediately benefit by it when i first started working with master tung s acupuncture in acupuncture school i read the available books of that time and wished there was a simple book to present the information since the average acupuncturist already is familiar with over 400 points why scrap that and begin another system but in the way i wrote this primer they can simply add to the information they have and then immediately apply this in the clinic there are many books on master tung s acupuncture but often these books may be too much for the beginner and do not let the beginner

grasp useful concepts or how to use master tung s acupuncture but don t underestimate the power of the content of this book it will certainly transform your practice the idea of this book is to give you a simple and elegant rationale for using the system use the powerful 14 channel acupuncture you are already familiar with and make use of the master tung system immediately

master tung s magic points volume two the how and why of tung s acupuncture begins with an examination of the seven theoretical principles used in tung s acupuncture while these foundational theories are discussed in the commentary throughout volume one a definitive clinical guide and volume three the clinician s best friend within this book we examine and explain them in much greater detail next we explore additional tung s and tcm acupuncture theory and practices including reaction areas body tissue correspondences face and palm diagnosis imaging and transporting points we include a significant contribution from yvonne farrell l ac discussing the eight extra meridians followed by a short commentary written by eric renaud on the interaction of tung s acupuncture with the eight extras we then provide instruction on special needling techniques including tonification and sedation palpation of points painless needling size length depth and direction of needling curving needle technique and much more in depth chapters cover the ancient arts of bleeding cupping and moxibustion excerpts are included from dr wang xiu zhen s bleeding book which inspired the trip i took with dr lee to study bleeding techniques in hefei china lastly we offer extensive guidance to assist you with treatment planning as well as commentary about how to build a successful practice volume two bridges the detailed point descriptions found in volume one with the pathologies discussed in volume three and explains how various techniques affect the way tung s points work together these three volumes represent all that i have learned from my teachers dr young wei chieh and dr miriam lee along with the practical knowledge gained from hundreds of thousands of treatments i have given to my patients my best teachers over the last forty years it is our hope that the sum of our work provides you with a solid basis to immediately begin replicating the amazing outcomes for which master tung s acupuncture is famous may these outcomes serve as a launching pad for you to pioneer in your own clinic designing new treatments to effectively address any challenges you may encounter

discover the legacy of master tung and doctor hu wen zhi whether you are an experienced acupuncturist or an enthusiast this book will offer you detailed and illustrated prescriptions for specific pathologies of otolaryngology and ophthalmology with points that had not been published in the first book of master tung and that dr hu wen zhi revealed immerse yourself in a journey through the world of tung acupuncture under a fresh and deep perspective of this exceptional technique alongside drago and his extensive personal and clinical experience a living testimony to tradition and innovation in the world of acupuncture

first multi year cumulation covers six years 1965 70

in this book i use a lot of standard acupuncture points along with master tung s acupuncture and emphasize the use of channels and imaging for optimal clinical use if a practitioner can use this work they can have a turnkey approach in the clinic simply by implementing these acupuncture and herbal protocols the idea is for each disease i have installed cheat sheets for the practitioner to immediately refer to and try to insert needles and prescribe herbs for the fifth in the series of master tung s acupuncture books the idea is for someone to start with the master tung s primer the best of master tung s acupuncture master tung s acupuncture for pain and master tung s acupuncture for internal medicine disorders with this manual we will discuss the use of master tung s acupuncture with herbals for even greater clinical success the book is composed of monographs on each disease best points to treat the problem and high percentage success herbal prescriptions to give the patient as homework unique is that we only use a handful of both tcm and master tung points and a small amount of herbal formulas for a turnkey approach to a clinic this can be used as a roadmap for the new clinician improve clinical success for the intermediate practitioner or provide an alternative approach for the seasoned veteran

although master tung s acupuncture has been in the public domain since his untimely passing in 1975 very little information is available publicly on how to use the system in a practical and systematic way in english in this book i hope to guide my fellow colleagues into the intricacies of applying master tung acupuncture in the clinic since i am also a practicing acupuncturist and deal with internal medicine problems quite frequently i wrote these based on the protocols that i use daily each of these protocols has been personally used by me one time or another in the clinic many of these are also the same protocols i used when i work daily in my private clinic since i am a visual person and i like things in a simple manner i have placed the pictures of the points indicated for the various ailments together to make it as simple as possible for the practicing acupuncturist to use in his or her clinic i dislike overly drawn out discussions on theory but prefer that application be one s guide i also dislike secrecy so i hold back no alleged secrets from anyone who wants to learn the real art my goal is to help end suffering in the world and help english speaking acupuncturists improve their proficiency through the vehicle of master tung s acupuncture

all the points you need to master tung acupuncture new easy to understand images and explanations of how the points work how to needle them and how to combine them with other points you don t need to know all the points to be proficient we have cut out the points that are not used often in modern clinics for the first time the tcm indications are included with each point

in this book i hope to guide my fellow colleagues into the intricacies of chinese medicine traumatology and the use of master tung s acupuncture in acute care and share the principles and concepts that make it a highly useful in the clinical setting i discuss here the principles and concepts that are used in the clinic and practical use to the licensed acupuncturist who is also studied in chinese

herbal medicine the chinese martial artist will also like my approach as i give the background on the herbology of dit da traumatology the composition of formulas discuss many famous remedies and their constitution teach to make your own custom rx s and use common patents for acute care and in addition use classical and master tung s acupuncture this has not been done before by any tung practitioner the book is extensively done in pin yin and chinese characters to help practitioners new to the subject to be able to cross reference the herbals in other books there are thousands of prescriptions for traumatology and orthopedics and after studying the subject for over 30 years and reading major books on the subject in chinese i distilled the essentials and approached the work in a practical straightforward manner to use clinically on a daily basis it is hoped that the reader can use these principles and concepts here and achieve amazing results in his or her practice as these are what i use in my own practice daily with amazing results

this series of books presents copious acupuncture prescriptions gathered from the english and chinese language tung acupuncture literature in the translator s personal library more than 15 different sources were referenced several currently out of print he has compiled collated and translated all the prescriptions proffered by wei chieh young min chuan wang palden carson robert chu esther su richard tan miriam lee and susan johnson and applied accompanying diagrams for each clinical entity to facilitate their application included are author specific point locations needling instructions contraindications and when available clinical comments lifestyle modifications etc all direct clinical experiences with master tung s acupuncture tung style acupuncture was brought to taiwan from mainland china by master tung ching chang in 1949 when he left china with the kuomintang kmt army under general chiang kai shek his acupuncture style was thus spared from the synthesis of the new medicine engendered as a consequence of the 1958 dictum by p r c chairman mao ze dong to create a new medicine i e to unify the best parts of western and chinese medicine ergo the tung style escaped the efforts to compel acupuncture to conform to the model espoused by the tcm herbalists who had been assigned to the task of inventing this new medicine forcing the proverbial square peg into a round hole as a system tung style acupuncture does not necessitate the use of the diagnostic methods or terminology adopted by contemporary herbalist driven tcm acupuncture this renders the tung style acupuncture well suited for use by non tcm trained clinicians furthermore the clinical results obtained using the tung style acupuncture often far surpass those achieved through the use of tcm acupuncture especially in the west this is in part because western patients seldom conform to an exact mold of a single tcm pattern w

for the first time calvin has published his clinical acupuncture case study book in english for clinicians and acupuncture students 30 years of clinical studies this book is absolutely beautiful it s easy for the beginner to read understand and follow the perfect pictorial atlas of acupuncture points not only has a description of each acu point but also has 3 different illustrations graphic overview of channels and a photograph showing the acupuncture needle in position i cannot say enough about this book chien acupuncture as a 3rd generation acupuncturist calvin chien has a lifetime of knowledge he utilizes in his acupuncture clinic daily chien s acupuncture

clinic in colorado springs co continues to treat a variety of health concerns using traditional chinese medicine techniques including acupuncture cupping and herbal treatments calvin chien diagnoses and treats his patients who suffer from numerous health concerns including chronic pain and the only practitioner and master in the fine art of master tung s acupuncture in colorado provided patients with the highest level of care since opening his own practice in 1997 master tung s points are fondly referred to as magic because in most cases these points deliver instant and lasting results less needling and long lasting results are not only preferable but also more effective since 2003 calvin continues to teach at master tung s acupuncture association in taiwanspecial instructor to team usa olympic medical staff colorado springs coteam acupuncturist to mlb los angeles dodgers los angeles ca awards acknowledgements authored three different books clinical acupuncture case study that were published in taiwan usa patent holder and inventor of the acupuncture device bio acueye mechanic in 2000

a complete reference for tung acupuncture points 163 images in total many images never published this book is an easy to use reference with the points listed in numeric order with the most common indications and clear location instructions a list of the points ordered by pin yin name is included an index covering all indications is included for easy reference
