an eye opening look at the ways we misjudge risk every day and a guide to making better decisions with our money health and personal lives in the age of big data we often believe that our predictions about the future are better than ever before but as risk expert gerd gigerenzer shows the surprising truth is that in the real world we often get better results by using simple rules and considering less information in risk savvy gigerenzer reveals that most of us including doctors lawyers financial advisers and elected officials misunderstand statistics much more often than we think leaving us not only misinformed but vulnerable to exploitation yet there is hope anyone can learn to make better decisions for their health finances family and business without needing to consult an expert or a super computer and gigerenzer shows us how risk savvy is an insightful and easy to understand remedy to our collective information overload and an essential guide to making smart confident decisions in the face of uncertainty

developing a practical theology of risk in a world where danger and uncertainty loom large it s easy to feel overwhelmed and unsure about how to tread wisely in ministry yet imagine having a comprehensive guide to aid in discerning reshaping and skillfully handling the risks that come your way facing danger a guide through risk is that resource against the rich backdrop of her family s own sojourn in perilous places anna hampton presents a treasure trove of practical tools and profound insights to help you thrive in an increasingly hazardous world with deep spiritual contemplation and meticulous research she offers a unique viewpoint on cross cultural service and the art of making sacrifices missionaries pastors and those yearning to embrace a life of unyielding faith will find facing danger to be an indispensable resource it includes a trauma recovery recipe sixteen risk myths a hermeneutical methodology and risk assessment and management training facing danger equips you to create a systematic action plan to faithfully traverse dangerous landscapes hampton empowers readers serving christ to decipher and adeptly handle risk with wisdom and hope

were you looking for the book with access to mylab math global this product is the book alone and does not come with access to mylab math global students if mylab math global is a recommended mandatory component of the course please ask your instructor for the correct isbn and course id mylab math global should only be purchased when required by an instructor instructors contact your pearson representative for more information there s no doubt that a manager s job is getting tougher do it better do it faster do it cheaper are the pressures every manager faces and at the heart of every manager s job is decision making deciding what to do and how to do it this well respected text looks at how quantitative analysis techniques can be used effectively to support such decision making as a manager developing a good understanding of the quantitative analysis techniques at your disposal is crucial knowing how and when to use them and what their results really mean can be the difference between making a good or bad decision and ultimately between business success and failure appealing both to students on introductory level courses and to mba and postgraduate students this internationally successful text provides an accessible introduction to a subject area that students often find difficult quantitative analysis for decision makers formerly known as quantitative methods for decision makers helps students to understand the relevance of quantitative methods of analysis to management decision making by relating techniques directly to real life business decisions in public and private sector organisations and focuses on developing appropriate skills and understanding of how the techniques fit into the wider management process key features the use of real data sets to show how analytical techniques are used in practice qadm in action case studies illustrating how organisations benefit from the use of analytical techniques articles from the financial times illustrating the use of such techniques in a variety of business settings fully worked examples and exercises supported by excel data sets student progress check activities in each chapter with solutions

a 300 page tutors solutions manual

a fast and frugal finance bridging contemporary behavioural finance and ecological rationality adds psychological reality to classical financial reasoning it shows how financial professionals can reach better and quicker decisions using the fast and frugal framework for decision making adding dramatically to time and outcome efficiency while also retaining accuracy the book provides the reader with an adaptive toolbox of heuristic tools and classification systems to aid real world decisions throughout financial applications are presented alongside real world examples to help readers solve established problems in finance including stock buying and selling decisions when faced with not only risk but fundamental uncertainty the book concludes by describing potential solutions to financial problems in the forefront of contemporary debates and calls for taking psychological insights seriously demonstrates how well constructed fast and frugal models can outperform standard models in time and outcome efficiency focuses on how financial decisions are made in reality using heuristics rather than how such decisions should be made discusses how cognition and the decision making context interact in producing fast and frugal choices that follow ecological rationality explores the development of decision making trees in finance to aid in decision making

the hallmark of this book is its conversational format the conversations are organic no jargons no additives such as equations and tables each conversation comes in bite size taking no more than ten minutes to digest

anti evolutionists climate denialists and anti vaxxers among others question some of the best established scientific findings by referring to the uncertainties in these areas of research uncertainty how it makes science advance shows that uncertainty is an inherent feature of science that makes it advance by motivating further research

this is a rigorous and meticulous guide to everything related to menopause alkon does a tremendous job of breaking down scientific facts for everyday readers her smart thoughtful accounts of her own experiences lend a feeling of camaraderie to the book kirkus reviews half of the population the female half is getting healthcare based on medical myth rather than evidence going menopausal is amy alkon s mission to change that this book started with a flash alkon s first hot flash drenching night sweats insomnia and brain fog soon followed along with shame at feeling bewilderingly enraged at everyone and everything alkon an award winning science columnist and author wanted to turn to

her doctor but there was a problem more than half of the medical care we get in the us may not be based on or supported by adequate evidence according to the us national academy of medicine knowing this alkon began a deep dive into the research on menopause and perimenopause the 3 to 10 years leading up to menopause when women s symptoms are widely ignored dismissed and misdiagnosed despite doctors having every intention of helping their patients she was shocked by what she found most gynecology departments lack even one doctor with training and expertise in menopausal and perimenopausal medicine and they expect their maternity and general reproductive health specialists to treat these conditions outside their scope of practice without informing patients a violation of medical ethics perimenopause is wrongly viewed and treated as menopause lite a time of lowered estrogen levels when estrogen levels actually soar making many women miserably symptomatic few doctors know that symptomatic perimenopausal women actually tend to lack progesterone and that replacing it with safe fda approved progesterone would alleviate their insomnia hot flashes and other suffering and counteract cell overgrowth that can lead to breast and endometrial cancer many doctors deny estrogen to their menopausal patients unaware of current research showing that estrogen not only alleviates symptoms but protects against cardiovascular disease soon to kill 1 in 3 women bone fractures metabolic syndrome and more findings from studies done largely on middle class white women are wrongly applied to black women and other women of color ignoring crucial differences such as generally lower triglyceride levels in black women that can make heart disease harder to detect this meticulously researched book is written in clear everyday language that you don t need the slightest science background to understand along with alkon s signature dark humor alkon equips you with the exact words to confidently ask critical questions and motivate your doctor to partner with you and treat you appropriately instead of giving you the treatment her favorite bus driver got told by her doctor to just wait out her raging insomnia night sweats and hot flashes alkon s ultimate goal empowering all women with the science and strategies they need to get the evidence based care they expect and deserve

unlock your mind from the bestselling authors of thinking fast and slow the black swan and stumbling on happiness comes a cutting edge exploration of the mysteries of rational thought decision making intuition morality willpower problem solving prediction forecasting unconscious behavior and beyond edited by john brockman publisher of edge org the world s smartest website the guardian thinking presents original ideas by today s leading psychologists neuroscientists and philosophers who are radically expanding our understanding of human thought contributors include daniel Kahneman on the power and pitfalls of human intuition and unconscious thinking daniel gilbert on desire prediction and why getting what we want doesn t always make us happy Nassim Nicholas Taleb on the limitations of statistics in guiding decision making vilayanur ramachandran on the scientific underpinnings of human nature simon baron cohen on the startling

effects of testosterone on the brain daniel c dennett on decoding the architecture of the normal human mind sarah jayne blakemore on mental disorders and the crucial developmental phase of adolescence jonathan haidt sam harris and roy baumeister on the science of morality ethics and the emerging synthesis of evolutionary and biological thinking gerd gigerenzer on rationality and what informs our choices

people often confuse intuition with a sixth sense or the arbitrary judgments of inept decision makers in this book gerd gigerenzer analyzes the war on intuition in the social sciences beginning with gendered perceptions of intuition as female followed by opposition between biased intuition and logical rationality popularized in two system theories technological paternalism amplifies these views arguing that human intuition should be replaced by perfect algorithms in opposition to these beliefs this book proposes that intuition is a form of unconscious intelligence based on years of experience that evolved to deal with uncertain and dynamic situations where logic and big data algorithms are of little benefit gigerenzer introduces the scientific study of intuition and shows that intuition is not irrational caprice but is instead based on smart heuristics researchers students and general readers with an interest in decision making heuristics and biases cognitive psychology and behavioral public policy will benefit

enlightening impassioned powerful the times from dating apps and self driving cars to facial recognition and the justice system the increasing presence of ai has been widely championed but there are limitations and risks too in this book gigerenzer shows how humans are often the greatest source of uncertainty and when people are involved unwavering trust in complex algorithms can become a recipe for disaster we need now more than ever to arm ourselves with knowledge that will help us make better decisions in a digital age filled with practical examples and cutting edge research how to stay smart in a smart world examines the growing role of ai at all levels of daily life with refreshing clarity this book is a life raft in a sea of information and an urgent invitation to actively shape the world in which we want to live masterful an essential read gary klein author of sources of power one of the world s most eminent psychologists spectator

why successful leaders must embrace simple strategies in an increasingly uncertain and complex world making decisions is one of the key tasks of managers leaders and professionals in smart management jochen reb shenghua luan and gerd gigerenzer demonstrate how business leaders can utilize heuristics simple decision making strategies adapted to the task at hand in a world that has become increasingly volatile uncertain complex and ambiguous vuca the authors make the case against complex analytical methods that quickly

reach their limits this against the grain approach leads to decisions that are not only faster but also more accurate transparent and easier to learn about communicate and teach smart management offers an evidence based yet practical discussion of how business leaders can use smart heuristics to make good decisions in a vuca world building on the fast and frugal heuristics program smart management demonstrates the efficacy of heuristic decision making in a twofold approach first it introduces the concept of ecological rationality which prescribes the environmental conditions under which specific heuristics work well second the book describes a repertoire of heuristics referred to as the adaptive toolbox that leaders managers and professionals can develop and rely on to make a variety of decisions such as on business strategy negotiation and personnel selection the toolbox not only showcases the practical usefulness of these heuristics but also inspires readers to discover and develop their own smart heuristics
