the text printed on the previous pages is devoted to three issues the joy of sex intimate massage and erotic games and foreplay their keystone is intimate touch its function cannot be overestimated not only in its relation to sex but also to health personal well being cheerfulness and life energy etc its most evident role is in intimate massage of course things are different between people dear to one another and strangers in the first instance intimate massage can be a prelude to sex while in the second case it is just a service performed for a specific purpose this publication is intended just as much for the single audience as it is for couples this is why sex and massage are intertwined together in this book however it does not mean that the author is encouraging sexual intercourse at the end of a massage unless of course it is a result of the partners closeness and spontaneity first of all this publication shows the outstanding role of intimate touch for our health and well being therapeutic intimate massage is not an overstatement for this special kind of massage because its proper use leads to the production of large amounts of endorphins which affect our mood this mechanism of our brain activity was described in sexual healing by barbara keesling phd it turns out that the same results can be achieved during intimate massage so this is why more than 300 ways of erotic and intimate touch are described in the book one does not have to check out all of them but instead finding a reasonable quantity that corresponds to the temperament is recommended
